

# Summary of Points – June 18, 2018

- Concerns about the appointment process for FNs Commissioners, and Panel members
- Need to recognize what is outlined in UNDRIP (e.g. article 18 &19) and how we move forward with implementation
- Interest in raising the AFE of 400,000 for more protection
  - Would like more information about the trade off, including the value to US, the cost to Canada and the impact on FN before providing advice
  - Clarity around Canada's FSC fisheries and Treaty exemption, potential impacts of Fraser Panel decisions on FSC access

# Summary of Points – June 18, 2018

- Clarity around Canada's FSC fisheries and Treaty exemption
  - Panel does not have control over FSC and Treaty
  - Panel decisions directly impact FSC fisheries
- Duration of the chapter
- Clarification of Fraser Panel waters
- Conservation is the priority for the treaty and would like that to be carried through in the negotiations including specific Upper Fraser concerns
  - Protecting weaker stocks in the mix and preventing overharvesting of these weaker stocks
